

公司简介

COMPANY PROFILE

山东鼎隆机械有限公司是一家市级科技示范企业。公司主营 CNC 重型数控石材机、CNC 数控木工机、CNC 数控广告机、CNC 数控立体雕刻机、光纤打标机、CO2 打标机、激光金属切割机、激光雕刻机、激光内雕机及相关配件等光电一体化产品。

公司不断引进国际先进生产技术与生产工艺，研制和生产高品质、高性价比的数控设备，持续为客户创造最大价值，产品广泛应用于工艺礼品业、服装业、皮革业、商标绣花业、广告业、印章业、包装业、制版业、家具制造业、刀模制造业、电子电器等行业，产品远销韩国、俄罗斯、美国、加拿大、泰国、马来西亚、印尼、意大利、土耳其等四十九个国家和地区。

山东鼎隆机械有限公司始终坚持“服务求市场、质量求生存、创新求进步、科技求发展”的服务宗旨，秉承“团结、拼搏、求实、创新”的企业精神，坚信“品质造就实力，专业打造品牌”经营理念，全方位为不同行业，不同需求的客户量身定制个性化的专业激光数控设备。

Shandong DINGLONG Machinery Co., Ltd. is a municipal science and technology demonstration enterprise. The company is mainly engaged in CNC heavy-duty CNC stone machine, CNC woodworking machine, CNC advertising machine, CNC three-dimensional engraving machine, optical fiber marking machine, CO2 marking machine, laser metal cutting machine, laser engraving machine, laser engraving machine and related accessories.

The company constantly introduces international advanced production technology and production process, develops and produces high-quality and cost-effective numerical control equipment, and continues to create the maximum value for customers. The products are widely used in Arts and crafts industry, clothing industry, leather industry, trademark embroidery industry, advertising industry, seal industry, packaging industry, plate making industry, furniture manufacturing industry, knife mold manufacturing industry, electronic and electrical appliances industry, etc, Products are exported to Korea, Russia, the United States, Canada, Thailand, Malaysia, Indonesia, Italy, Turkey and other 49 countries and regions.

Shandong DINGLONG Machinery Co., Ltd. always adheres to the service tenet of "service for market, quality for survival, innovation for progress, science and technology for development", adheres to the enterprise spirit of "unity, hard work, realism and innovation", firmly believes in the business philosophy of "quality creates strength, specialty creates brand", and provides all-round services for different industries, Different needs of customers customized personalized professional laser CNC equipment.

3015 光纤激光切割机

FIBER LASER CUTTING MACHINE

优良电机
Excellent motor

自动对焦
Autofocus

铸铝横梁
Cast aluminum beam

可用于切割0.5-20MM碳钢板, 0.5-10MM不锈钢板, 镀锌板, 电解板, 硅钢, 0.5-10MM铝合金, 0.5-6MM黄铜与紫铜等多种薄金属材料

技术参数 Technical parameter

工作面积 Work area	1500*3000mm	重复定位精度 Repeated positioning accuracy	±0.03mm
激光功率 laser power	300W-2000W	工作电压 working voltage	380V/220V
空行速度 Air speed	90m/min	机床运行湿度 Operation Humidity	< 90%
切割速度 Cutting speed	35m/min	机床运行温度 Operation Temperature	0-40°C
定位精度 positioning accuracy	±0.05mm	整机重量 Weight	2000-7500kg
最小线宽 Minimum line width	0.1mm	传动方式 Driving mode	精密齿条双驱+滚珠丝杠

产品特点 Product characteristics

- 机架采用框式焊接结构, 刚性好, 强度高, 横梁轻量化设计, 具备良好的加速性能, 经过数控龙门铣床精密加工, 确保运动精确, 焊接件进行时效处理消除焊接应力, 有效防止结构变形
- 专门设计的电气控制柜密封性能优异, 避免灰尘进入, 电气系统运行可靠
- 采用台湾PDI/上银方形直线导轨, 定位精度高、磨损少, 能长时间维持高精度, 组装容易并具互换性
- 纵横向均采用进口高精度斜齿条驱动, 配备减速机和交流伺服系统实现精确定位传动

- The frame adopts frame welding structure, with good rigidity, high strength, light weight design of crossbeam body, and good acceleration performance. After precise processing by CNC gantry milling machine, it ensures accurate movement, and the welding parts are aging treated to eliminate welding stress and effectively prevent structural deformation.
- The specially designed electrical control cabinet has excellent sealing performance, avoids dust entry, and the electrical system operates reliably.
- With Taiwan PDI / upper silver square linear guide rail, it has high positioning accuracy, less wear, can maintain high accuracy for a long time, easy assembly and interchangeability.
- It is driven by imported high-precision helical gear rack in both vertical and horizontal directions, equipped with reducer and AC servo system to realize precise positioning and transmission.

适用材料和行业 Applicable materials and industries

适用于碳钢板、不锈钢板、铝合金板、镀锌板、电解板、硅钢、钛合金、镀锌铝版薄黄板等多种金属材料
主要应用于厨房电气、钣金机箱机柜、机械设备、电器设备、灯饰五金、广告标牌、汽车配件、展示器材、电梯制造、各种金属制品、钣金切割等行业

Suitable for carbon steel plate, stainless steel plate, aluminium alloy plate, galvanized plate, electrolytic plate, silicon steel, titanium alloy, aluminized zinc plate yellow plate and other metal materials.

Mainly used in kitchen electrical, sheet metal case cabinet, mechanical equipment, electrical equipment, lighting hardware, advertising signs, automotive accessories, display equipment, elevator manufacturing, various metal products, sheet metal cutting and other industries.

航空铝横梁结构
Aircraft aluminium beam structure

铸铝工艺设计, 具有抗腐蚀、抗氧化、韧性及延展性良好等特点
The process design of cast aluminium has the characteristics of corrosion resistance, oxidation resistance, good toughness and ductility.

蜂窝式碳素床身
Honeycomb Carbon Bed

退火工艺增加床身材料的延展性, 床身稳固稳定, 刚性高, 精度更高
The annealing process increases the ductility of the bed material. The bed is firm, stable, rigid and accurate.

自动对焦激光头
Automatic focusing laser head

通过设置参数, 灵活调节焦点刻度, 通过自动调焦, 完成厚板的高速穿孔和自动切割不同厚度的板材

By setting parameters, adjusting focus scale flexibly and focusing automatically, high-speed perforation of thick plates and automatic cutting of plates with different thickness can be achieved.

1325 直排换刀加工中心

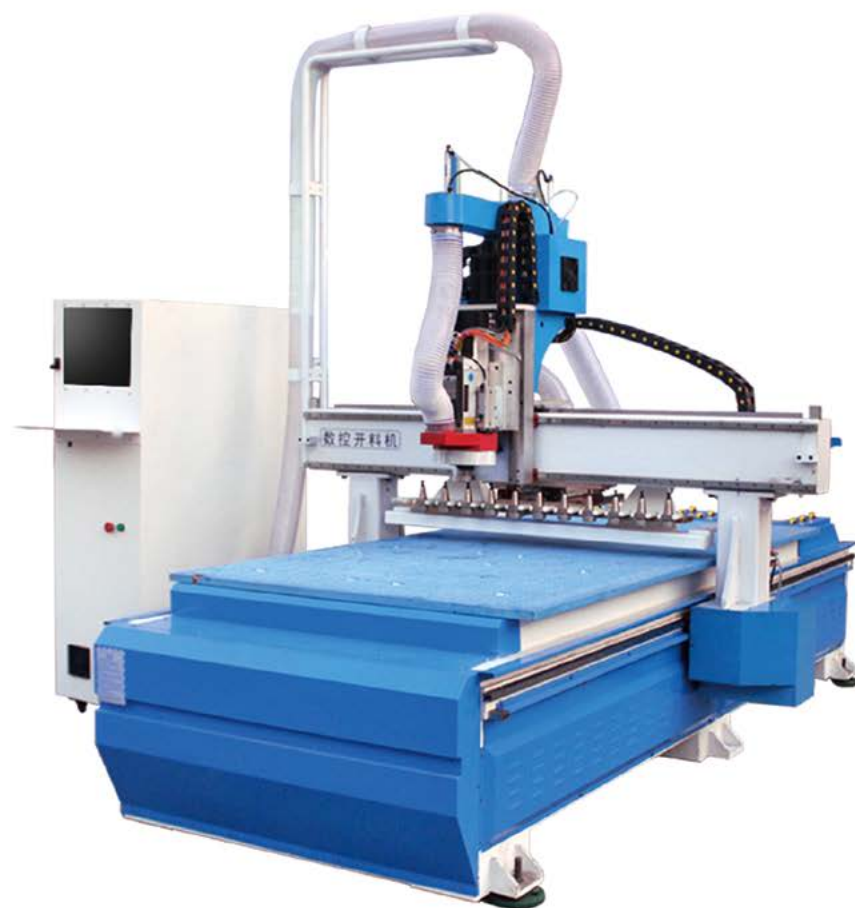

1325 straight row tool change machining center

直排换刀
Straight line tool changer

换刀主轴
Tool changing spindle

适用范围 Scope of application

- 木工行业: 木门、家具、屏风、立体波浪板加工、工艺扇窗加工, 各种家具产品的辅助加工
- 广告行业: 广告标牌、标志制作、亚克力切割、吸塑制模、多种材料广告装饰产品的制作
- 其他行业: 可以雕刻各种影雕、浮雕, 广泛应用于工艺礼品行业
- Woodworking industry: wooden door, furniture, screen, three-dimensional wave board processing, craft fan window processing, auxiliary processing of various furniture products
- Advertising industry: advertising signs, logo production, acrylic cutting, plastic molding, production of various materials advertising products.
- Other industries: it can carve various kinds of shadow carvings and reliefs, which are widely used in Arts and crafts industry

产品特点 Characteristic

直排换刀加工中心

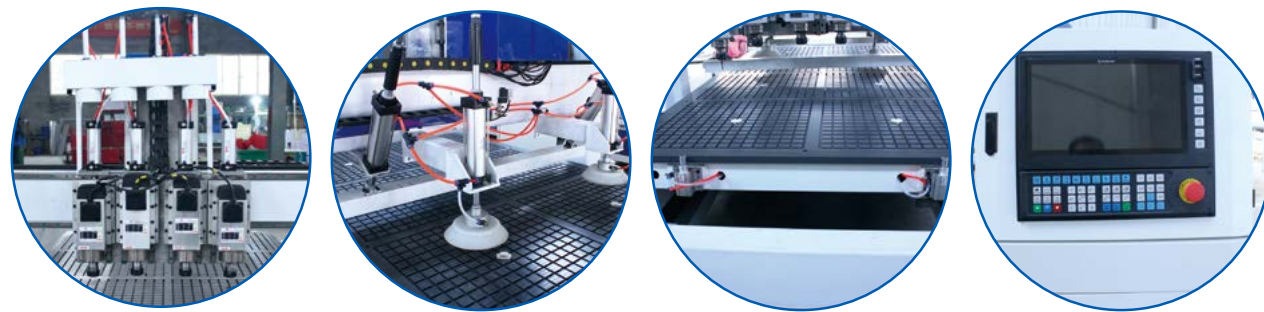

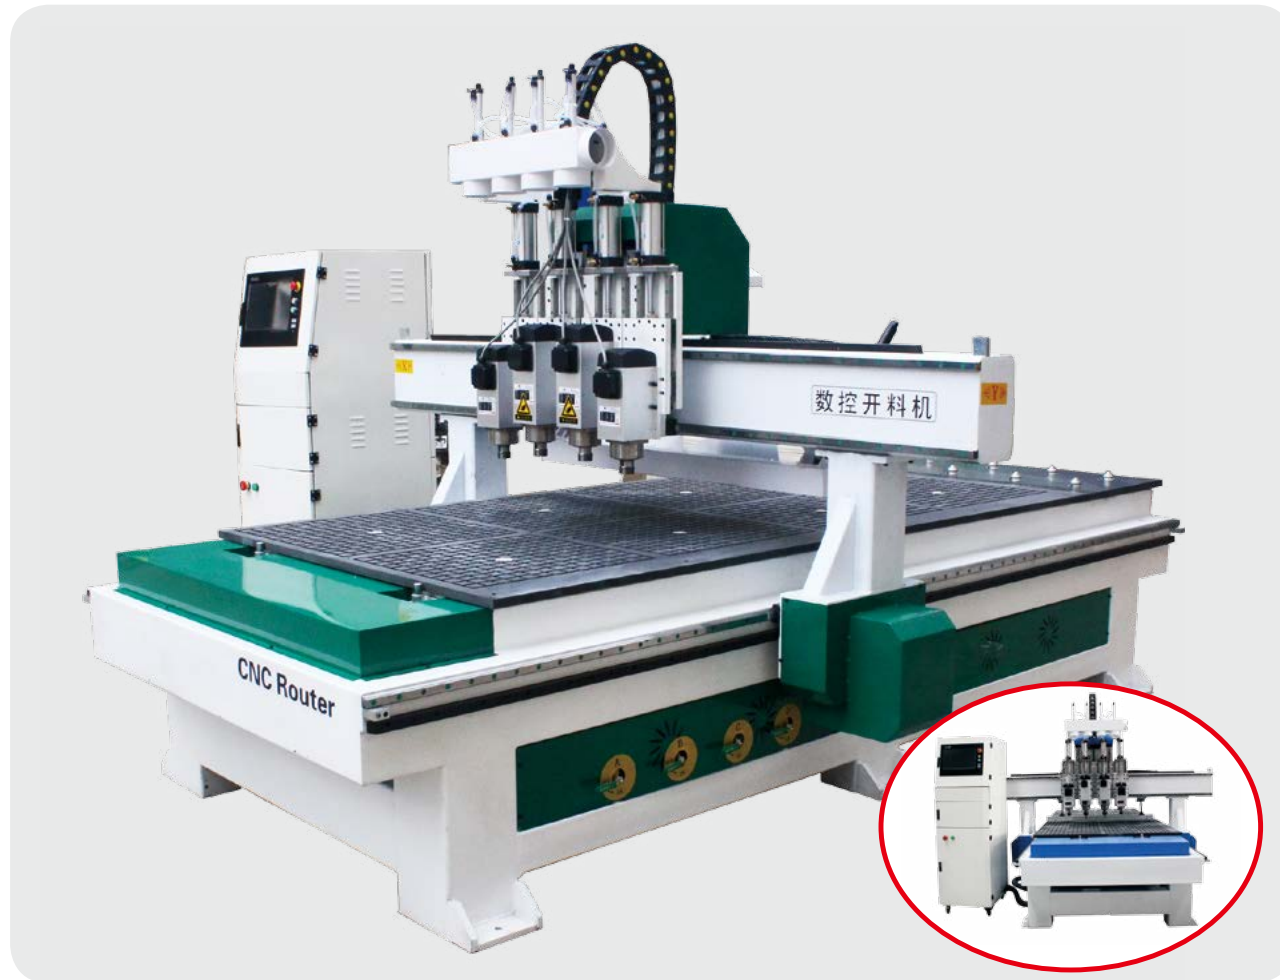

- 重型机身: 床身焊接高刚性矩形钢管焊机焊接, 经时效处理, 精度高, 经久耐用不会变形
- 自动换刀主轴: 高质量大功率主轴, 自动换刀, 智能推料, 加工效率高
- 真空吸附: 双台面真空吸附, 吸附更牢靠板材再小也能保证不以为, 稳定性好
- 进口斜齿: 优质进口斜齿, 采用高频淬火精制而成, 使用寿命长
- 混合伺服电机: 高性能强劲电机, 性能强劲, 大大提升了工作效率
- 数控系统: 该系统性能稳定, 工作简易稳定, 线条高柔、抗寒、防干扰不会因为软件问题给您带来阻力
- Heavy machine body: machine bed welding high rigid rectangular steel pipe welding machine, after aging treatment, high precision, durable without deformation
- Automatic tool change spindle: high quality and high power spindle, automatic tool change, intelligent material pushing, high processing efficiency
- Vacuum adsorption: double table vacuum adsorption, more reliable adsorption, no matter how small the plate can be, good stability
- Imported bevel gear: high quality imported bevel gear, refined by high frequency quenching, long service life
- Hybrid servo motor: high performance strong motor, strong performance, greatly improving the working efficiency
- CNC system: this system has stable performance, simple and stable operation, high flexibility, cold resistance and anti-interference, and will not bring you resistance due to software problems

技术参数 Technical parameter

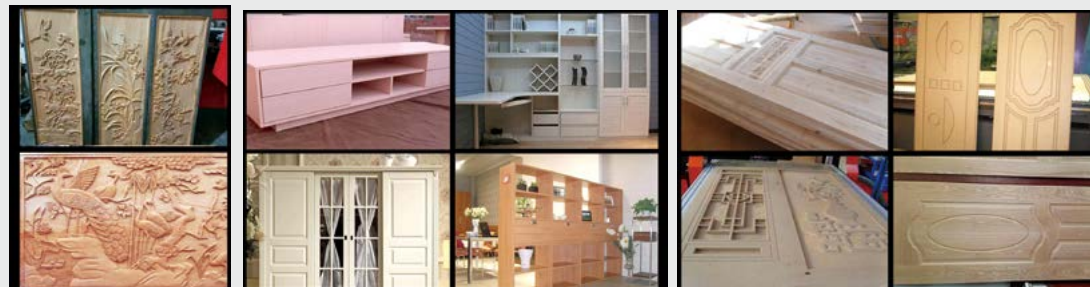

机器名称	Machine name	直排换刀加工中心	Straight row tool change machining center
有效行程	Effective stroke	1300*2500mm	
床身	Lathe bed	加厚加重双层机身 (焖火床身五面铣加工)	Thickened and weighted double-layer body
XYZ 结构	XYZ structure	斜齿条+25方轨+25滑块	Bevel rack + 25 square rail + 25 slide
Z 轴	Z axis	加装双辅助平衡气缸 带抱闸电机	Adding double auxiliary balance cylinder with holding brake motor
主轴功率	Spindle power	昌盛 9kw 换刀主轴 (可选配)	Changsheng 9kw tool change spindle (optional)
刀库	Tool magazine	12 把直排换刀刀库 (可选配 8 把刀库)	12 straight row tool change magazine (8 optional)
变频器	Frequency converter	台湾智欧	Taiwan Zhi ou
减速机	Reducer	日本新宝	Japanese new treasure
台面结构	Mesa structure	2.5cm 厚真空吸附台面 (独立 8 分区控制)	2.5cm thick vacuum adsorption table (independent 8-zone control)
吸尘器	Vacuum cleaner	布袋式双桶吸尘器 (包含吸尘罩以及吸尘管件套)	Bag type double barrel vacuum cleaner
真空泵	Vacuum pump	7.5kw 水环式真空泵	7.5kW water ring vacuum pump
对刀方式	Tool setting mode	手轮调节自动对刀	Hand wheel adjustment automatic tool setting
定位系统	positioning system	3+2 自动定位气缸 (Y 轴 3、X 轴 2)	3 + 2 automatic positioning cylinder (Y-axis 3, X-axis 2)
操作系统软件	Operating system software	台湾宝元控制系统	Taiwan Baoyuan control system
支持格式	Support format	BMP/PLT/AI/CDR/DXF 等	BMP / PLT / AI / CDR / DXF, etc
系统环境	System environment	Windows xp Win7/8	
配电箱	Power Distribution Box	专用数控一体控制柜 (超强散热能力)	Special CNC integrated control cabinet (super heat dissipation)
推料功能	Pushing function	全自动双气缸推料装置 (包含二次吸尘)	Full automatic double cylinder pushing device
龙门立柱	Longmen column	方钢大龙门+专用开料机方形加厚立柱	Square steel large gantry + special cutting machine square thickened column
注油	Oil injection	全自动定时注油系统	Automatic timing oil filling system
最大空行速度	Maximum idling speed	90-130m	
最大运行速度	Maximum operating speed	40m	

1325cnc 四工序雕刻机

1325 CNC four-process engraving machine

样品展示

1325cnc 四工序雕刻机

1325 CNC four-process engraving machine

1325 数控四工序雕刻机特点:

Characteristics of 1325 CNC four-process engraving machine:

1. 控制系统采用山龙系统，驱动系统采用国内知名品牌伺服电机。
1. The control system adopts Shanlong system and the drive system adopts domestic famous brand servo motors.
2. 采用双层真空吸附台面，配合大功率真空泵，瞬间吸力更强，即便是加工小的板材也能完全吸住。
2. Double-deck vacuum adsorption table, with high-power vacuum pump, instantaneous suction is stronger, even if the processing of small plates can absorb completely.
3. 配有气缸定位，大幅度提升加工效率，还可选配自动上下料平台，节省人力物力降低生产成本。
3. Equipped with cylinder positioning, greatly improve the processing efficiency, but also optional automatic loading and unloading platform, save manpower and material resources and reduce production costs.
4. 拥有断电续雕、断电恢复、加工时间预测等功能。
4. It has the functions of power off carving, power off recovery, processing time prediction and so on.
5. 软件兼容性强，可兼容 type3/ artcam/castmate/ 文泰 / 精雕等多种 CAD/CAM 设计制作软件。
5. Software compatibility, compatible with type 3 / ArtCAM / castmate / Wentai / carving and other CAD / CAM design and production software.
6. 配有专用排版下料软件，实现自动排版 + 板材下料 + 异形切割 + 垂直打孔等功能，完全可以代替推台锯省人工成本，提高加工效率。
6. Equipped with special typesetting and cutting software, it can realize the functions of automatic typesetting + plate cutting + abnormal cutting + vertical punching. It can completely replace the push sawing to save labor costs and improve processing efficiency.

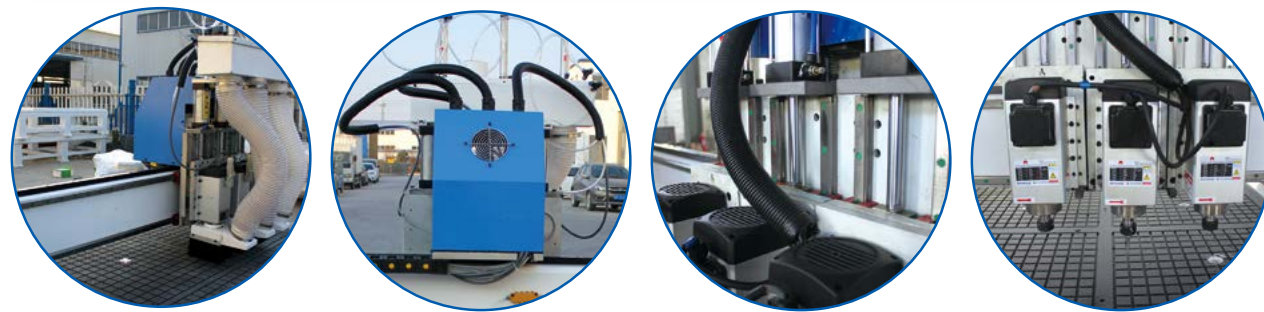

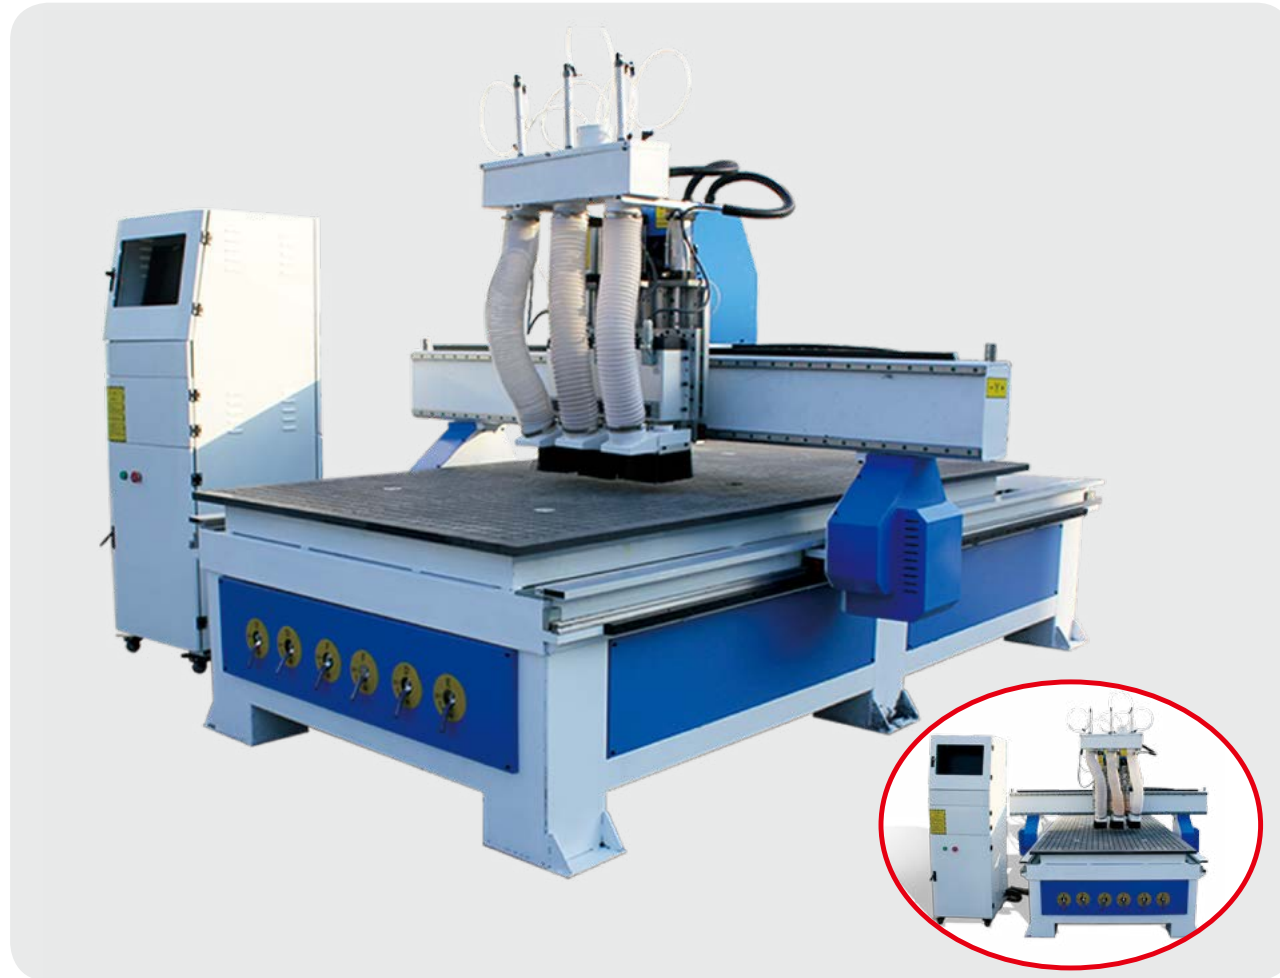

» 1325 四工序雕刻机

1325 four-process engraving machine

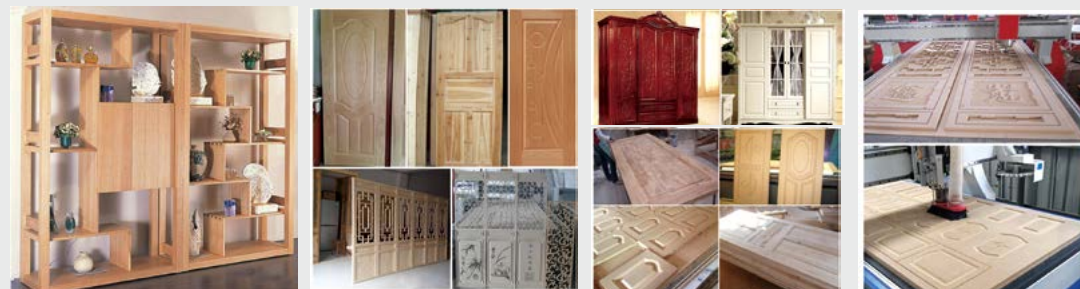

产品名称 / Product name	1325 四工序雕刻机 / 1325 four-process engraving machine
功率 / Power	3.5KW/4.5KW/6.0KW
主轴 / Principal axis	风冷主轴 3.5KW/4.5KW/6.0KW / Air-cooled spindle 3.5KW/4.5KW/6.0KW
外形尺寸 / Shape size	2000*3000*1600mm
工作电压 / Working voltage	380V
工作幅面 / Processing area	1300mmx2500mm (接受定制) / 1300mmx2500mm(accept custom)
工作平台 / Work platform	精钢焊接 4mm 平台 / Welding 4mm platform for fine steel
台面 / mesa	真空吸附 5.5/7.5kw / Vacuum adsorption 5.5/7.5kw
XYZ 行程 / XYZ stroke	1300*2500*200mm
加工精度 / Machining precision	±0.03mm 以内 / Less than 0.03mm
重复定位精度 / Repeatability accuracy	±0.02mm
龙门结构 / Longmen structure	加厚方钢龙门 / Thickened square steel gantry
材料固定 / Material fixation	真空吸附(真空吸附电机5.5kw 可选配7.5kw) / Vacuum adsorption (vacuum adsorption motor 5.5kw) (optional 7.5kw)
底座 / Base	0.5 无缝焊接淬火处理 / 0.5 seamless welding quenching treatment
运行模式 / Operation mode	86HBM80 混合伺服电机 / 86HBM80 hybrid servo motor
电机 / Electric machinery	86HBM80 / 86HBM80
驱动器 / Driver	HBS758 / HBS758
XYZ 结构 / XYZ structure	X轴斜齿条、Y轴斜齿条、Z轴丝杠 (+25方轨) / X shaft slanting rack, Y shaft slanting rack, and Z axis screw (+25 square rail)
XY 轴 / XY axis	25 方轨 / 斜齿条 / 25 square rail/helical rack
Z 轴 / Z axis	高精度 TBI 滚珠丝杠 / High precision TBI ball screw
吸尘器 / Vacuum cleaner	3.0kw 双筒吸尘器 / 3.0kw duster dust collector
系统环境 / System environment	WINDOWS XP/Win7/8 (4G 以上内存, 32 位)
支持格式 / Support format	BMP,PLT,AI,CDR,DXF
雕刻指令 / Engraving instruction	HCP/G
操作系统 / Operating system	山龙系统 / Mountain dragon system

1325cnc 三工序雕刻机

1325cnc three process engraving machine

样品展示

1325cnc 三工序雕刻机

1325cnc three process engraving machine

1325 数控三工序雕刻机特点:

1325 CNC three process engraving machine features:

1. 重型床身: 床身焊接高刚性矩形钢管焊机焊接, 经时效处理, 精度高, 经久耐用不会变形。
1. heavy bed: welding high rigid rectangular steel pipe welder with high rigidity, through aging treatment, high precision, durable and not deformed.
2. 三大主轴: 高质量大功率主轴, 三个主轴任意切换, 自动换刀, 智能推料, 加工效率高。
2. three major spindle: high quality and high-power spindle, three spindle arbitrary switching, automatic knife change, intelligent push material, high processing efficiency.
3. 真空吸附: 双台面真空吸附, 吸附更牢靠板材再小也能保证不以为, 稳定性好。
3. vacuum adsorption: double surface vacuum adsorption, adsorption more firmly on the plate can also ensure that it is not thought, good stability.
4. 进口斜齿: 优质进口斜齿, 采用高频淬火精制而成, 使用寿命长。
4. imported skew teeth: high quality imported skew teeth, high frequency quenching and refined, long service life.
5. 混合伺服电机: 高性能强劲电机, 性能强劲, 大大提升了工作效率。
5. Hybrid servo motor: high performance strong motor, strong performance, greatly improve the efficiency of work.
6. 数控系统: 该系统性能稳定, 工作简易稳定, 线条高柔、抗寒、防干扰不会因为软件问题给您带来阻力。
6. numerical control system: the system is stable, easy to work and stable, the line is high and soft, cold, and anti-interference will not bring you resistance because of the software problem.

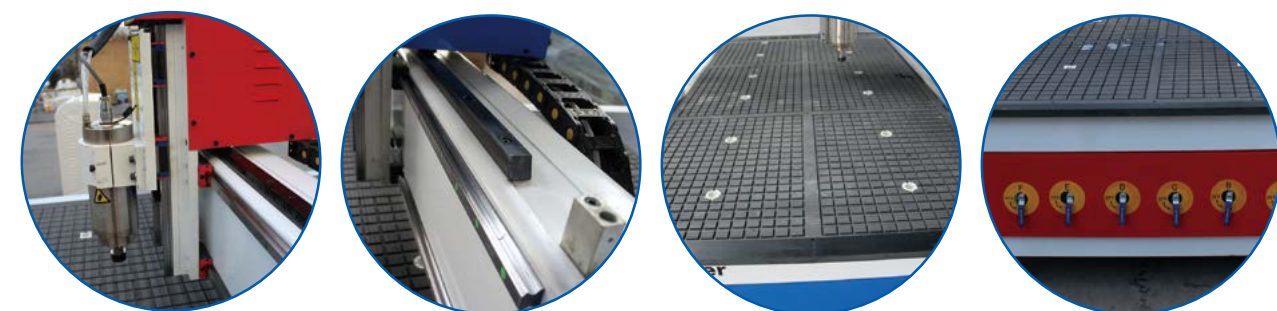

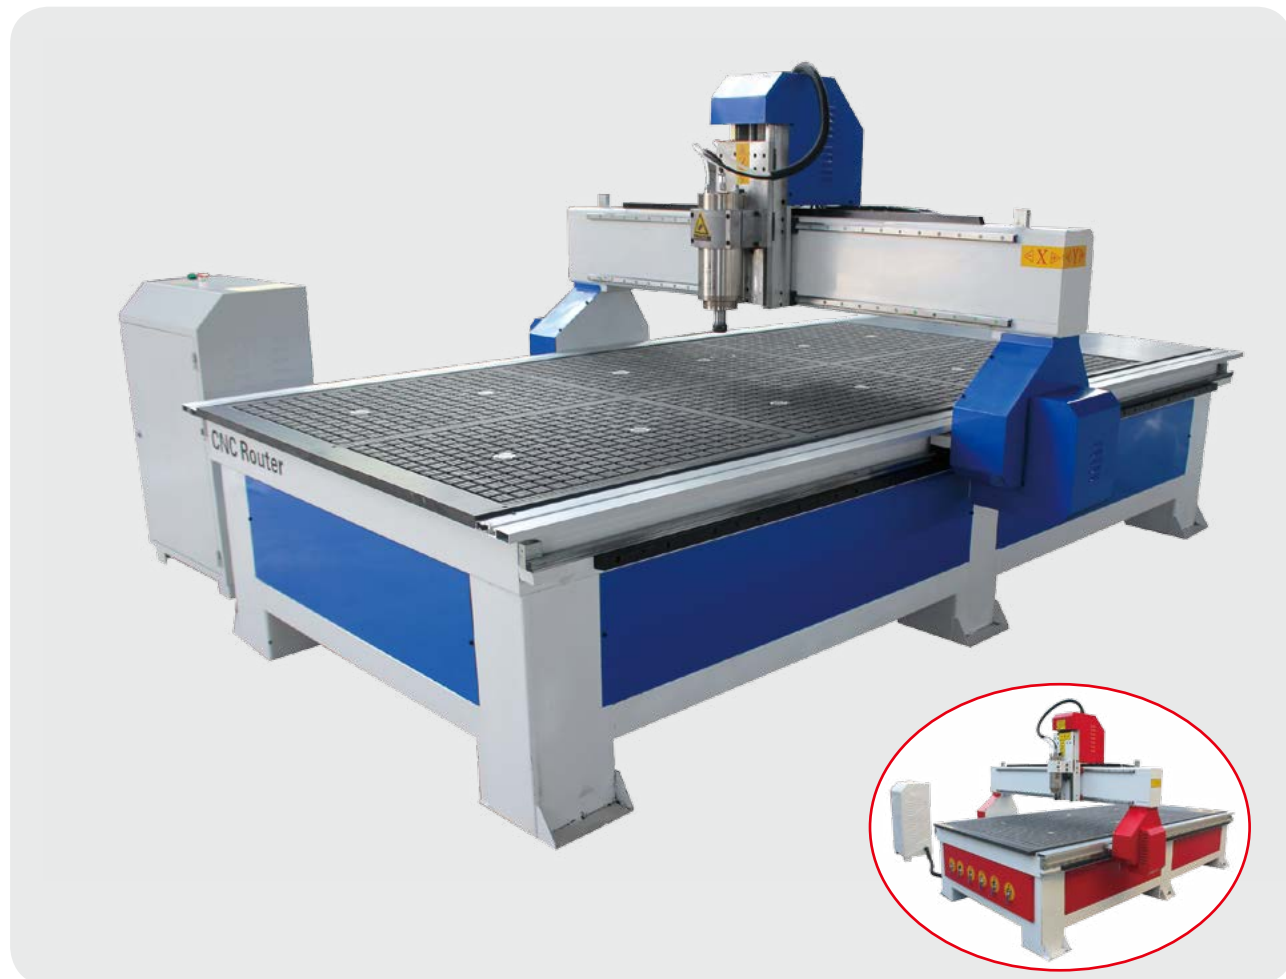

» 1325 三工序雕刻机

1325 three-process engraving machine

产品名称 / Product name	1325 三工序数控雕刻机 / 1325 Three-Procedure CNC Engraving Machine

1325 真空吸附木工雕刻机

1325 Vacuum Adsorption Woodworking Engraving Machine

1325 真空吸附木工雕刻机

1325 Vacuum Adsorption Woodworking Engraving Machine

1325 真空吸附木工雕刻机特点:

Characteristics of 1325 Vacuum Adsorption Woodworking Engraving Machine:

1. 三轴采用高精度滚珠丝杆 \ 进口导轨，确保机器的精度
1. three axis adopts high precision ball screw, imported guide rail, to ensure the machine precision
2. 采用高细分步进电机，速度快 \ 噪音小 \ 运行平稳 \ 切割力矩大
2. use high subdivision step motor, high speed ~ noise ~ operation and smooth cutting moment
3. 采用变频无刷水冷大功率主轴电机，噪音小 \ 寿命长 \ 转速均匀
3. high power spindle motor with variable frequency brushless water cooling, low noise ~ long life and uniform speed
4. 大功率 深切割 可一刀切割 20mm 亚克力板材 (2.2KW)
4. high power deep cutting can cut 20mm acrylic sheet (2.2KW) with one knife
5. 开放式软件接口，可接各种 3D 雕刻机软件，兼容精雕软件
5. open software interface, can be connected with various software 3D engraving machine, carving software compatible

适应行业 Adapt to the industry

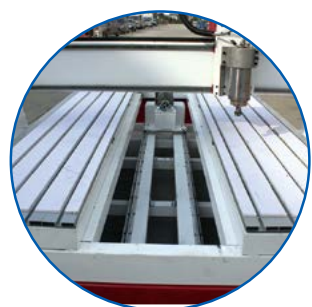

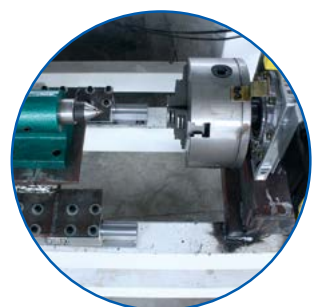

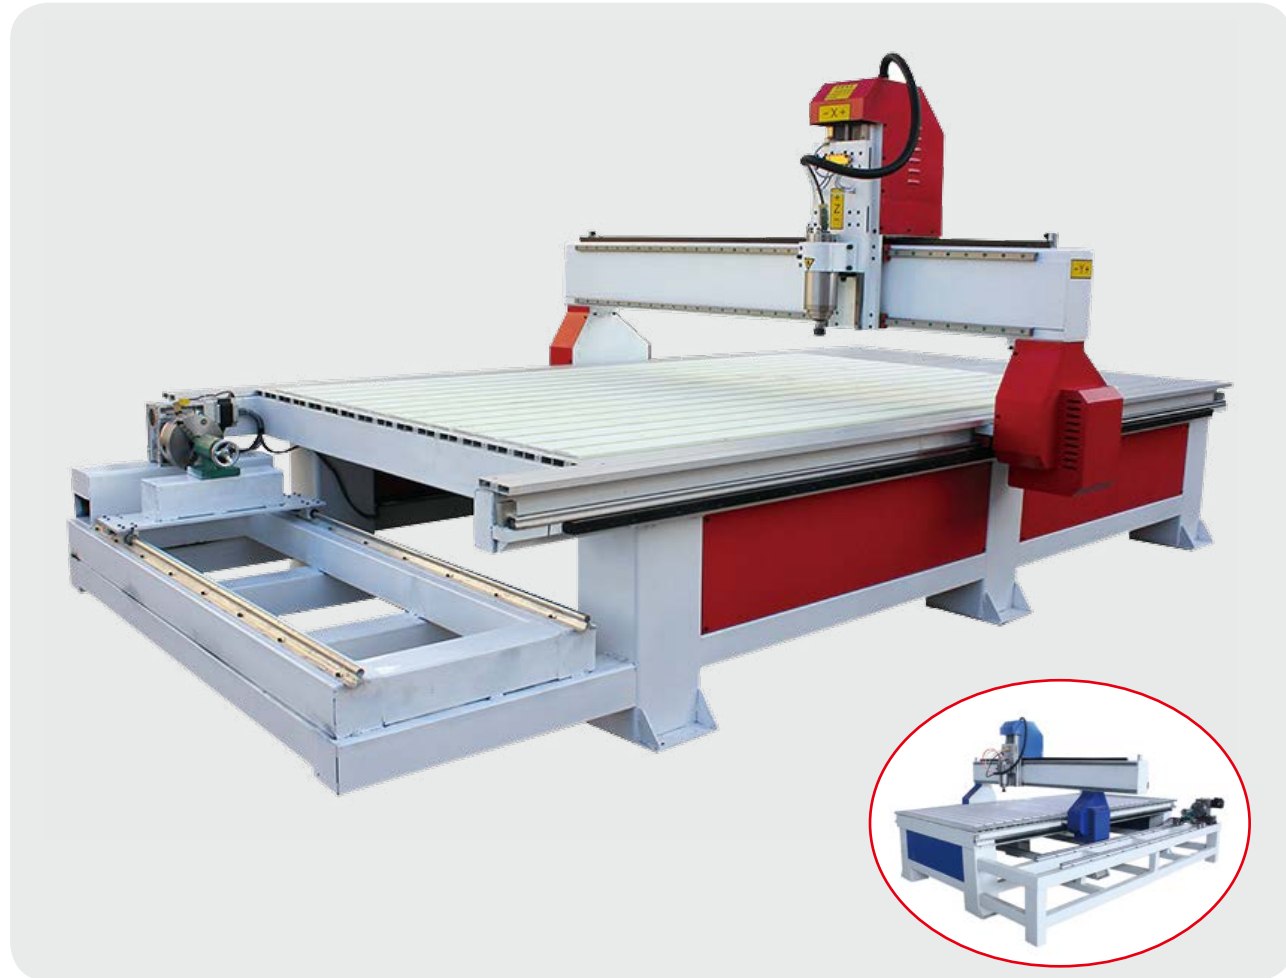

- 1) 本机适合多元化复杂性产品加工或多样加工，用途广泛，可雕刻钻孔等，主要用于切割与铣削。
1) this machine is suitable for the diversification of the complexity of processing or diversity processing, wide range of uses, can be carved drilling, mainly used for cutting and engraving and milling.
- 2) 木工行业: 此款机器适合 棺木 寿材 木门 浮雕雕刻，还可以做立体波浪板加工，屏风 艺扇窗加工，电脑桌及板式家居产品的辅助加工。
2) woodworking industry: This machine is suitable for wooden coffin coffin relief carving, also can do three-dimensional wave board processing, screen window art processing, computer aided machining table and the type of Home Furnishing products.

1325 标配 | 1325 marking

产品名称 / Product name	1325 真空吸附木工雕刻机 / 1325 Vacuum Adsorption Woodworking Engraving Machine
功率 / Power	3.2KW/5.5KW
外形尺寸 / Shape size	2000*3000*1600mm
工作电压 / Working voltage	380V ,50/60Hz
工作幅面 / Processing area	1300mmx2500mm(接受定制) / 1300mmx2500mm(accept custom)
工作平台 / Work platform	精钢焊接平台 / Welding platform for fine steel
XYZ 行程 / XYZ stroke	1300*2500*200mm (Z轴可加高至1200mm) / 1300*2500*200mm (Z axis can be increased to 1200mm)
加工精度 / Machining precision	±0.05mm
重复定位精度 / Repeatable positioning accuracy	±0.02mm
台面、龙门结构 / Mesa and Longmen structure	25mm 厚黑 PVC/ 加厚方钢龙门 / 25mm thick black PVC/thick square steel gantry
真空泵	5.5KW/7.5KW
运行模式 / Operation mode	步进电机 (标配 450b 电机) / Stepper motor (marking 450b motor)
XYZ 结构 / XYZ structure	X轴斜齿条+方轨、Y轴斜齿条+方轨、Z轴丝杠+方轨 / X axis oblique rack + square rail, Y axis oblique rack + square rail, Z axis screw + square rail
XY 轴 / XY axis	20 方轨 / 斜齿条 / 20 rail / oblique rack
Z 轴 / Z axis	高精度进口滚珠丝杠 / High precision imported ball screw
主轴 / Principal axis	功率 3.0kw 水冷 转速 6000-24000r/min (功率可选) / Power 3.0kw water cooling speed 6000-24000r/min
系统环境 / System environment	WINDOWS XP/Win7/8 (4G 以上内存, 32 位)
支持格式 / Support format	BMP,PLT,AI,CDR,DXF
方轨 / Go abreast	20/25 方轨 / Upper silver 20/25 party rail
驱动器 / Driver	86 型驱动器 / Type 86 Driver
运行模式 / Operation mode	450b 步进电机 (可是选配混合伺服和伺服电机) / 450b stepper motor (but selection of hybrid servo and servo motor)
雕刻指令 / Engraving instruction	HCP/G
操作系统 / Operating system	标配维宏系统 / Standard Weihong system

1) this machine is suitable for the diversification of the complexity of processing or diversity processing, wide range of uses, can be carved drilling, mainly used for cutting and engraving and milling.
- 2) 木工行业: 此款机器适合 棺木 寿材 木门 浮雕雕刻，还可以做立体波浪板加工，屏风 艺扇窗加工，电脑桌及板式家居产品的辅助加工。
2) woodworking industry: This machine is suitable for wooden coffin coffin relief carving, also can do three-dimensional wave board processing, screen window art processing, computer aided machining table and the type of Home Furnishing products.
- 3) 可加工 玉石 大理石 花岗岩 人造石 瓷砖 玻璃 铝材等材料。
3) can be processed jade marble granite artificial stone ceramic tile glass aluminum material and so on.

1325 标配 | 1325 marking

产品名称 / Product name	1325 数控轻型石材雕刻机 标配 / 1325 numerical control light stone engraving machine marking
功率 / Power	3.2KW/5.5KW
外形尺寸 / Shape size	2300*3400*1600mm
工作电压 / Working voltage	380V/220V ± 10%, 50/60Hz (5.5kw 建议使用 380V) / 380V/220V ± 10%, 50/60Hz (5.5kW recommended using 380V)
工作幅面 / Processing area	1300mmx2500mm(接受定制) / 1300mmx2500mm(accept custom)
工作平台 / Work platform	精钢焊接 5mm 平台 / Welding 5mm platform for fine steel
XYZ 行程 / XYZ stroke	1300*2500*300mm (Z 轴可加高至 1200mm) / 1300*2500*200mm (Z axis can be increased to 1200mm)
加工精度 / Machining precision	± 0.05mm
重复定位精度 / Repeatable positioning accuracy	± 0.02mm
台面、龙门结构 / Mesa and Longmen structure	横 / 竖向铝型材 T 槽、加厚方钢龙门 / Horizontal / vertical aluminum T groove, thickened square in Longmen
底座 / Base	无缝焊接淬火处理 / Seamless welding quenching treatment
运行模式 / Operation mode	步进电机 / 混合伺服电机 / 伺服电机 (重型 5.5kw 建议配置混合伺服电机) / Stepper motor / hybrid servo motor / servo motor (heavy 5.5kW recommends a hybrid servo motor)
XYZ 结构 / XYZ structure	X 轴斜齿条 + 方轨、Y 轴斜齿条 + 方轨、Z 轴丝杠 + 方轨 / X axis oblique rack + square rail, Y axis oblique rack + square rail, Z axis screw + square rail
XY 轴 / XY axis	20 方轨 / 斜齿条 / 20 square rail/helical rack
Z 轴 / Z axis	高精度 TBI 滚珠丝杠 / High Precision TBI Ball Screw
主轴 / Principal axis	功率 5.5kw 水冷 转速 0-24000r/min (功率可选) / Power 3.0kw water cooling speed 0-24000r/min
系统环境 / System environment	WINDOWS XP/Win7/8 (4G 以上内存, 32 位)
支持格式 / Support format	BMP,PLT,AI,CDR,DXF / BMP,PLT,AI,CDR,DXF
方轨 / Go abreast	20 方轨 / 20 way rail
驱动器 / Driver	86 型驱动器 / Type 86 Driver
运行模式 / Operation mode	86 型 450b 步进电机 (可是选配混合伺服和伺服电机) / Model 86 450b stepper motor (but selection of hybrid servo and servo motor)
雕刻指令 / Engraving instruction	HCP/G
操作系统 / Operating system	标配维宏系统 / Standard Weihong system
电脑配置 / Random appendage	买家电脑配置, 需要有 PCI 主板接口 / Buyer computer configuration, need to have PCI motherboard interface

1325cnc 重型石材雕刻机

1325cnc heavy-duty stone engraving machine

样品展示

1325cnc 重型石材雕刻机 1325cnc heavy-duty stone engraving machine

1325 数控重型石材雕刻机特点:

1325 CNC heavy-duty stone engraving machine features:

1. 三轴采用高精度滚珠丝杆\进口导轨，确保机器的精度
1. three axis adopts high precision ball screw, imported guide rail, to ensure the machine precision
2. 采用高细分步进电机，速度快~噪音小~运行平稳~切割力矩大
2. use high subdivision step motor, high speed~noise~operation and smooth cutting moment
3. 采用变频无刷水冷大功率主轴电机，噪音小~寿命长~转速均匀
3. high power spindle motor with variable frequency brushless water cooling, low noise~long life and uniform speed
4. 大功率 深切割 可一刀切割 20mm 亚克力板材 (2.2KW)
4. high power deep cutting can cut 20mm acrylic sheet (2.2KW) with one knife
5. 开放式软件接口，可接各种 3D 雕刻机软件，兼容精雕软件
5. open software interface, can be connected with various software 3D engraving machine, carving software compatible

适应行业 Adapt to the industry

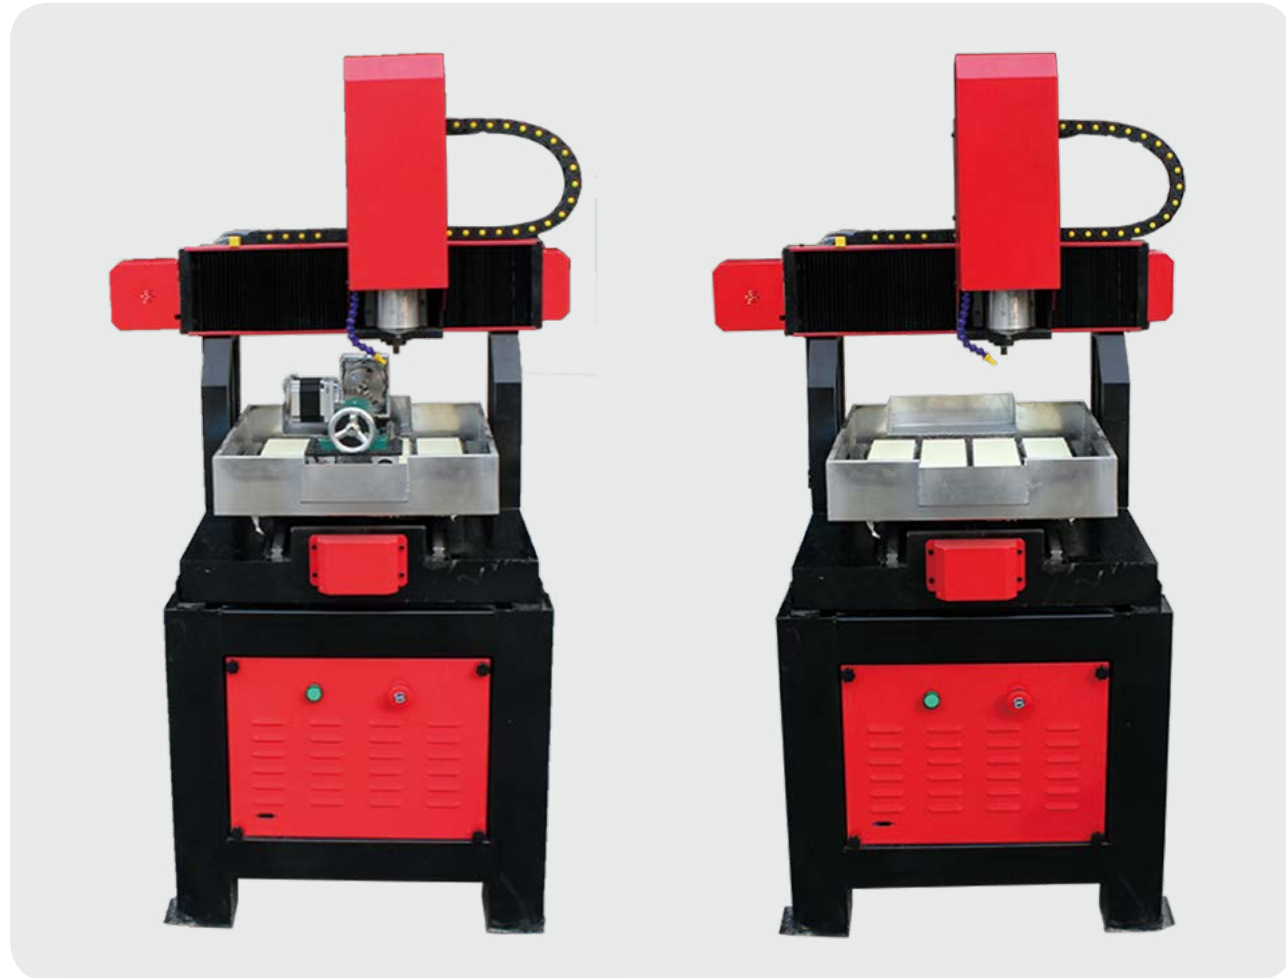

- 1) 本机适合多元化复杂性产品加工或多样加工，用途广泛，可雕刻钻孔等，主要用于切割与铣削。
1) this machine is suitable for the diversification of the complexity of processing or diversity processing, wide range of uses, can be carved drilling, mainly used for cutting and engraving and milling.
- 2) 木工行业: 此款机器适合 棺木 寿材 木门 浮雕雕刻，还可以做立体波浪板加工，屏风 艺扇窗加工，电脑桌及板式家居产品的辅助加工。
2) woodworking industry: This machine is suitable for wooden coffin coffin relief carving, also can do three-dimensional wave board processing, screen window art processing, computer aided machining table and the type of Home Furnishing products.
- 3) 可加工 玉石 大理石 花岗岩 人造石 瓷砖 玻璃 铝材等材料。
3) can be processed jade marble granite artificial stone ceramic tile glass aluminum material and so on.

光纤激光打标机系列

Fiber Laser Marker Series

适应行业 Adapt to the industry

- 1) 汽车机械行业：轴承、钢套、活塞环、发动机、车辆标牌及机床等。
1) Automotive machinery industry: bearings, steel sleeves, piston rings, engines, vehicle signs and machine tools, etc.
- 2) 电子通讯行业：手机、键盘、电子元器件、家电面板、光缆、电缆等。
2) Electronic communication industry: mobile phones, keyboards, electronic components, household appliances panels, optical cables, cables, etc.
- 3) 五金器材行业：工具、量具、刃具、卫浴洁具、餐具、制锁、刀剪、医用器械、健身器材、不锈钢制品等。
3) Hardware Industry: Tools, Measuring Tools, Cutting Tools, Sanitary Wares, Tableware, Lock Making, Knife and scissors, Medical Instruments, Fitness Equipment, Stainless Steel Products, etc.
- 4) 饰扣标牌行业：钮扣、箱包扣、皮带扣、金银饰品、指示牌、胸牌、考勤卡、名片、相片、皮包、皮带、笔及笔盒、收藏器、艺术品等。
4) Buttons, bags, belt buckles, gold and silver jewelry, signboards, breastplates, attendance cards, business cards, photographs, bags, belts, pens and pencil boxes, collectors, works of art, etc.
- 5) 包装瓶盖行业：烟草、食品、药品、化妆品等内外包装、金属瓶盖、家具装饰、饰扣标牌，塑胶制品。
5) Packaging bottle cap industry: tobacco, food, medicine, cosmetics and other internal and external packaging, metal bottle cap, furniture decoration, decorative button tags, plastic products.

光纤打标机标配 | Fiber marking machine marking

激光功率 / Laser power	10W/20W/30W/50W
激光波长 / Laser wavelength	1064nm
重复频率 / Repetition frequency	20-200KHZ
打标范围 / Marking range	110mm*100mm
激光器 / Laser	20W
激光器类型 / Type of laser	脉冲光纤激光器 / Couplet Chuangxin 20W
震镜 / Mirror shock	YAG 数字震镜 / YAG digital mirror
场镜 / Field lens	YAG 高透场镜 / YAG high permeable field mirror
激光电源 / Laser power supply	优质电源 / High quality power supply
定位 / Location	红光 / Red
冷却方式 / Cooling mode	风冷 / Air cooling
打标速度 / Marking speed	0-7000mm/m
最小线宽 / Minimum line width	0.001mm
最小字符 / Minimum character	0.15mm
传输接口 / Transmission interface	USB
使用电源 / Use power	220v/10 安培 / 220v/10 ampere
整机耗电 / Whole machine power consumption	300w
操作系统 / operating system	64 位操作系统

二氧化碳 (co2) 打标机

Carbon dioxide (CO2) marking machine

样品展示

二氧化碳 (co2) 打标机

Carbon dioxide (CO2) marking machine

二氧化碳 (co2) 打标机特点:

Carbon dioxide (CO2) marking machine features:

1. 优质的振镜

获得欧盟市场强制性安全认证，可扩大视场，增加入射的通量，可让出像面位置放置调制盘，以解决无处放置调制器的问题。

1. high quality vibrating mirror

The mandatory safety certification of the EU market is achieved, which can expand the field of view and increase the flux of the incident. It can allow the placement of the modulation disc on the image plane position to solve the problem of placing the modulator nowhere.

2. 二维工作平台:

灵活、结构紧凑，轻便、小巧，接口简洁，加工方向灵活可调，驾驭自如，出口资质非常硬。

2. the two-dimensional working platform:

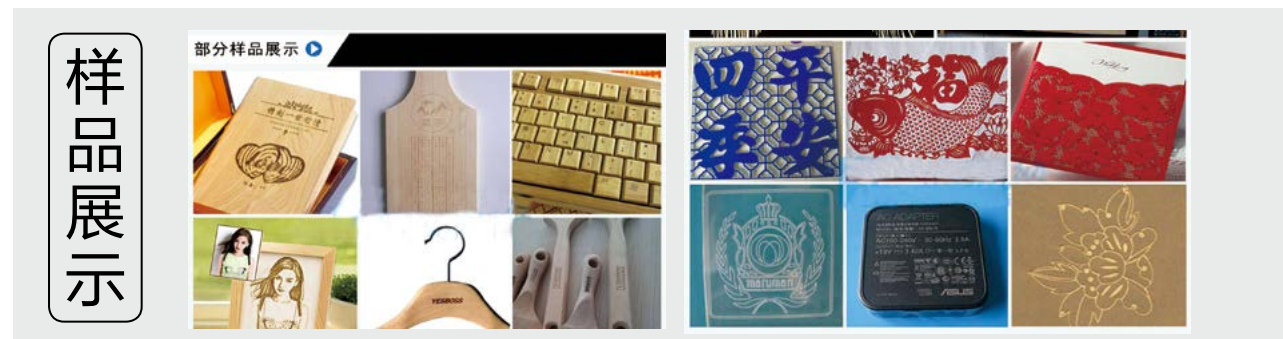

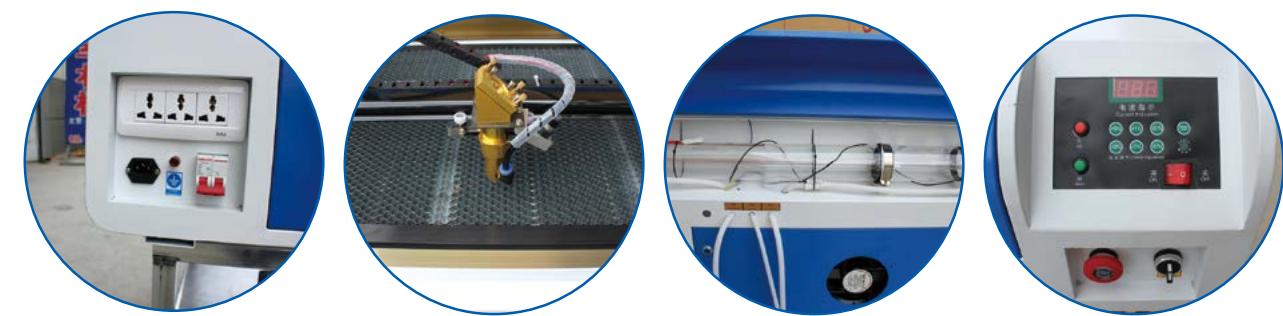

Flexible, compact, portable, compact, simple interface, flexible and adjustable processing direction, easy to control, and very hard export qualification.

CO2 打标机 标配 | CO2 marking machine marking

产品名称 / Product name	二氧化碳 (co2) 打标机 / Carbon dioxide (CO2) marking machine
激光功率 / Laser power	20W/30W
外形尺寸 / Shape size	80cm*70cm*140cm (长宽高) / 80cm*70cm*140cm (long and wide)
激光波长 / Laser wavelength	1064nm
重复频率 / Repetition frequency	20-200KHZ
打标范围 / Marking range	110mm*100mm (可选配 300*300 的打标范围建议用 30w 的) / 110mm*100mm (the range of marking for optional 300*300 is recommended for 30W)
激光器 / Laser	20W/30w / 20W/30w Williams
激光器类型 / Type of laser	Co2 激光器 / Co2 laser
震镜 / Mirror shock	YAG 数字震镜 / YAG digital mirror
场镜 / Field lens	YAG 高透场镜 / YAG high permeable field mirror
激光电源 / Laser power supply	优质电源 / High quality power supply
定位 / Location	红光 / Red
冷却方式 / Cooling mode	风冷 / Air cooling
打标速度 / Marking speed	0-7000mm/m / 0-7000mm/m
最小线宽 / Minimum line width	0.1mm / 0.1mm
最小字符 / Minimum character	0.3mm / 0.3mm
传输接口 / Transmission interface	USB / USB
使用电源 / Use power	AC110v+10%60hz (220v) / AC110v+10%60hz (220v)
整机耗电 / Whole machine power consumption	1.2kw / 1.2kw
操作系统 / operating system	32 位或 XP/win7 系统 / 32 bit or XP/win7 system

4060 6090 1390 激光雕刻机

4060 6090 1390 laser engraving machine

4060 6090 1390 激光雕刻机

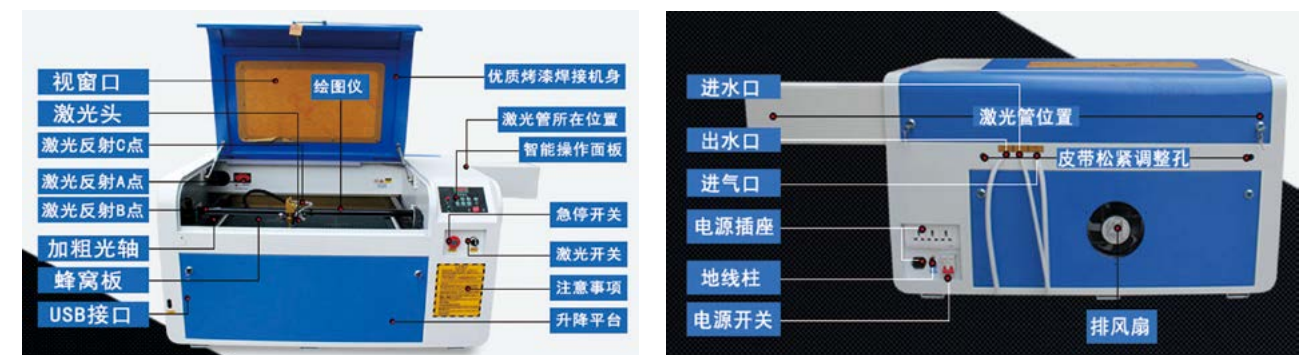

4060 6090 1390 laser engraving machine

4060 6090 1390 激光雕刻机特点:

Characteristic of 4060 6090 1390 laser engraving machine:

激光雕刻机是采用高能、高精心激光束在物体表面，非接触。快速雕刻出永久文字、图案的设备，该型激光雕刻机，具有超节能终身免维护，无损耗，操作简单，打标效果精细等特点，该型采用国内高品质激光器，光束质量高，雕刻速度快，稳定耐用，具有较高性价比。

Laser engraving machine uses high-energy, high-precision laser beam on the surface of the object, non-contact. The laser engraving machine has the characteristics of super-energy saving, lifelong maintenance-free, non-loss, simple operation and fine marking effect. It uses domestic high-quality laser, with high beam quality, fast engraving speed, stability and durability, and has high cost performance.

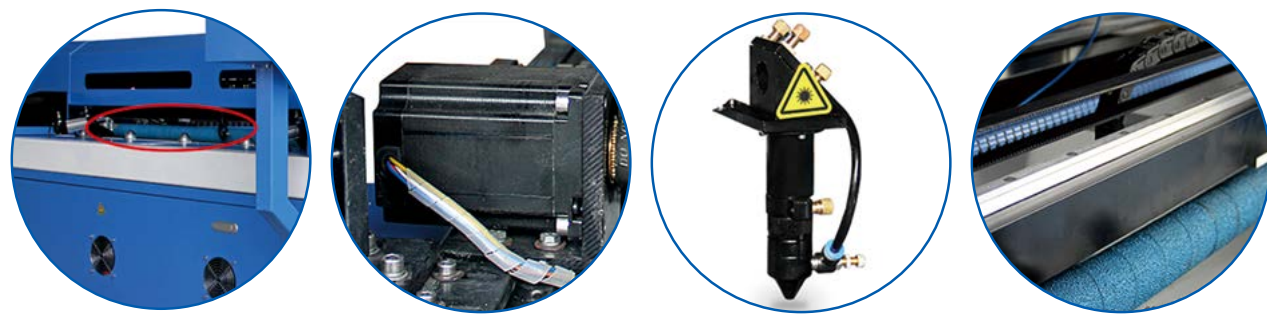

激光雕刻机标配 | Standardization of Laser Engraving Machine

激光功率 / laser power	40W/60W/80W/100W/130W/150W
电源 / Power Supply	AC 220V,50Hz/60hz
定位精度 / positioning accuracy	± 0.1mm
总功率 / Total power	≤ 500W
工作温度 / working temperature	0℃ -45℃
工作湿度 / Working humidity	5-95% (无凝水) / 5-95% (Non condensate water)
最小成形文字 / Minimum Formed Text	汉字 2.0*2.0mm 字母 1.0*1.0mm / Chinese Character 2.0*2.0mm Letter 1.0*1.0mm
激光类型 / Laser type	封闭式 CO ₂ 激光管 / Closed CO ₂ laser tube
切割速度 / Cutting speed	0-30000mm/min
雕刻速度 / Carving speed	0-500mm/s
驱动方式 / Driving mode	步进驱动 / Stepping drive
支持图文格式 / Supporting of file Formats	Coreidraw/DXF/plt

1325 激光雕刻机

1325 laser engraving machine

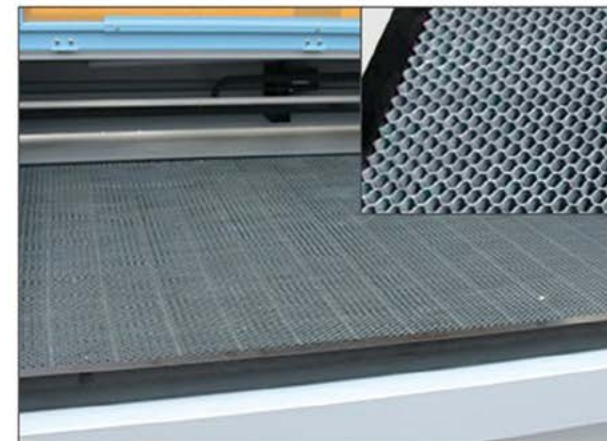

样品展示

1325 激光雕刻机

1325 laser engraving machine

蜂窝板平台

利用蜂窝构成原理，
高强度不易变形，结构稳定性高，
吸声、隔热，适用于加工小工艺品等

铝刀平台

采用中空式刀条不易
变形，高硬度、材质好，经久耐用
高强度抗弯，适用于大材料如亚克力等

1325 激光雕刻机 | 1325 laser engraving machine

产品名称 / Product name	1325 激光雕刻机 / 1325 laser engraving machine
激光功率 / Power	40W/60W/80W/100W/130W/150W
工作电压 / Working voltage	220V ± 10% ,50/60Hz
工作幅面 / Processing area	1300mmx2500mm
定位精度 / positioning accuracy	<0.01mm
工作平台 / Work platform	铝刀平台 / Aluminum knife platform
水温要求 / Water temperature requirement	5℃ -35℃
最大雕刻速度 / Maximum sculpture speed	1000/mm/s
最小雕刻尺寸 / Minimum sculpture size	汉字 2*2mm, 字母 1*1mm /
断电续雕 / Breakpoint continuation	有 / Yes
平台升降方式 / Platform lift mode	固定 / fixed
雕刻精度 / Engraving accuracy	0.0125mm
最大切割速度 / Maximum cutting speed	500mm/s
控制方式 / control mode	DSP
切割厚度 / Cutting thickness	0-25mm
系统环境 / System environment	Windows XP / Win7/8
通信接口 / communication interface	USB
支持格式 / Support format	BMP, PLT, AI, CDR, DXF
360 度坡度雕刻 / 360-degree slope sculpture	选配 / Matching
256 色分层输出 / 256 color hierarchical output	支持 / Support
冷却方式 / Cooling mode	水冷 / water-cooling
脱机工作 / off-line working	支持 / Support
支持软件 / Support software	CDR、PS、AUTOCAD
